

## What the PPF does

ONLY RELEVANT POLICY IN SCHEMES	INTEGRATION WITH LOCAL POLICY	MORE MAPS
	<p>Include regional and local policies with state policy so that there is a clear picture of all the policies that apply to individual land uses</p>	<p>The current SPPF contains just one map</p>
<p><i>New system of automation to achieve this</i></p>	<p><i>This is likely to require a staged roll-out</i></p>	<p><i>RGP and Plan Melbourne maps to be included</i></p>

POLICY THAT TELLS A STORY	DEFINED ELEMENTS TO POLICIES	DEFINED LANGUAGE AND BETTER NAVIGATION
<p>Present policy in a clear narrative style that implies importance</p>	<p>Heading Explanatory paragraph Objectives and strategies <i>Particular Provisions</i> Guidelines for decision makers Strategic planning guidelines <i>Application of zones and overlays</i> Background documents</p>	<p>Most elements numbered Unique number for all policy in the planning system Defined language for strategies and guidelines</p>
<p>See structure of page 2</p>	<p><i>Makes it clear what applies to a decision</i></p>	<p><i>Numbering system could be rolled out for all VPP and local provisions</i></p>
