GROUND FLOOR LANDSCAPE PLAN - OPTION 1
Dissolved Edge / Entry Marker / Pot Stand
GROUND FLOOR PLANTING PALLETTE - OPTION 1
HERBACEOUS WOODLAND FLOOR

PURPLE, WHITE, SILVER, GREEN - SOFT, LAYERED, FLOWERING, WITH FEATURE SHRUBS UP TO 2M

Viola odorata
Hellebore sp.
Sarcococca hookeriana ‘Winter Gem’

Vinca minor ‘Alba’
Campanula poscharskyana
Aspidistra elatior
Bartlettina sordida

Acanthus mollis
Liriope muscari
Lamium maculatum ‘Anne Greenaway’
Plectranthus argentatus
GROUND FLOOR PLANTING PALLETTE - OPTION 2
VAGUELY JAPANESE PALETTE

DARK GREEN, LIME
DISTINCT LAYERS, SWATHES OF LOW SPECIES
AT SIMILAR HEIGHTS PUNCTUATED WITH SMALL
MAPLES

Liniope muscari and Ophiopogon japonicus
Acer sp.
Bamboo sp.
Pachysandra terminalis
Euphorbia amygdaloides var robbiae
GROUND FLOOR PLANTING PALLETTE - OPTION 3
STRAPPY AND SCULPTURAL
WEIRD AND WONDERFUL
OVEN STREET ENTRY AND STAIR PLANTING

Sawn bluestone cobbles

Timber bench

750mm high raised planted with selected climbers

Parthenocissus sikkimensis

Vitis coignitae

Sawn bluestone cobbles

Solid timber bench
WESTERN COURTYARDS

- Small shade tolerant tree and feature shrubs at rear of garden bed
- Permeable edge
- Climb plants to rear wall
- Irrigated Garden bed

Plants:
- *Dichondra repens*
- *Ficus pumila*
- *Mahonia lomariifolia*
- *Parthenocissus sikkimensis / tricuspidata*
- *Arthropodium cirratum ‘Matapouri Bay’*
- *Ruscus hypoglossum*
- *Luculia gratissima*
Planting would require 500mm setback to allow for minimum 300mm topsoil, drainage and mulching. 750mm height for tree planting. 1500mm wide edge planter would be a minimum recommendation.
LEVEL 2 AND 4 WEST FACING PLANTER PALETTE

With a nod to the mid-century Pierucci building the planting palette attends to its sunny and exposed west facing orientation with a selection of hardy succulent and aromatic plants favoured in 50’s and 60’s gardens. Trailing plants including the prostrate Rosemary, Blue Chalksticks and Trailing Parrot’s Beak provide a weeping edge of foliage at the building parapet, and foreground the sculptural forms of the proposed succulents, silver leafed groundcovers and low shrubs.

Planting would require 500mm setdown to allow for minimum 300mm topsoil, drainage and mulching. 750mm height for tree planting.

- Rosmarinus prostrate
- Aloe ‘Ruby Blaze’
- Opuntia ‘Burbank’ (spineless)
- Tetrapanax papyrifolia
- Helichrysum petiolare
- Recycled brick mulch
- Olea europea
- Senecio mandraliscae
