Schedule of planned activities

Community and stakeholder engagement and consultation for the proposed Hexham Wind Farm is guided by the project development phases and the EES Consultation Plan. The project has received the final EES scoping requirements and is now working towards submission of the EES. This includes completion of the impact assessments required.

Consultation activities planned from July 2025 to September 2025 will inform stakeholders on project milestones and the public comment process led by the Department of Transport and Planning (DTP). Feedback will also be gathered to gain insights into project sentiment and key areas of concern for the local community.

This document provides a schedule of activity planned for Q3 2025. Activities and timing may change based on ongoing stakeholder feedback and project progress.

July 2025

<i>Activity</i>	<i>Details</i>	<i>Stakeholder</i>	<i>Engagement purpose</i>	<i>Proposed timing</i>
