Growing Suburbs Fund

Department  
of Transport  
and Planning

## Growing Suburbs Fund (2015-2025)

The Growing Suburbs Fund (GSF) was a response to the needs of growing communities through fast-tracking high priority local infrastructure projects. These projects contributed to more resilient and liveable communities and improved Councils' capacity to respond to changing community needs and demands.

The GSF represented a \$445 million Victorian Government investment over 10 years to provide local infrastructure on the outskirts of Melbourne.

Since its establishment in 2015, the Program has supported 370 projects representing a total infrastructure investment of \$1.33 billion and has created over an estimated 11,300 jobs.

In 2015-2016, the fund was known as Interface Growth Fund
