6. **What aspect of the Great Ocean Road and its landscapes would you most like to see changed?**
Traffic - out of control - too much for the road to cope with & slow drivers with poor understanding of the road rules and who never pull out to let others pass
Better recognition of the indigenous history of the area
Better litter control / collection in public spaces
Better regulation of non-camping areas (enforcing council by-laws to stop free camping in illegal spots - huge issues with litter and they just toilet on the beach / in the bushes)
Consideration of toll / National Park entry fees for tourists - especially busses (who abuse the natural beauty and wildlife without giving anything back to towns)
Banned bus parking and bird feeding in Kennett River - creates chaos and harm to wildlife and gives nothing to the town
7. **Do you work for, own or operate a business, or are you a member of a community organisation, that benefits from visitors to the Great Ocean Road Region?**

11. **What are your thoughts about establishing a new organisation to oversee the development, and coordinate implementation, of a Strategic Framework Plan for the Great Ocean Road Region?**
Great idea as long as it doesn't just create another level of red tape / bureaucracy to get through
Needs to come with sufficient funding to implement change / management
12. **What current constraints need to be addressed in the future governance arrangements?**
13. **Are there any other management models /options we should consider?**

The national parks in the Canadian Rockies appear very well run - user pays system, extremely clean, lots of respect to local and indigenous history, care of wildlife.

14. What key criteria should the Taskforce use to evaluate the management model options?

What is your age range?
