

- Encourage the sustainable expansion of cultural heritage and nature-based tourism.
- Avoid or minimise the impact of development on high value environmental and cultural heritage assets, including significant landscapes.
- Enable the establishment, protection and reconnection of ecosystems through large-scale native vegetation corridor projects.
- Reduce the impact of development on high value coastal, estuarine and marine assets.
- Manage growth to help maintain the health of water supply catchments.
- Manage risks to settlement growth from natural hazards.

- Settlement
- Major road
- 🏠 Aboriginal cultural heritage, places and landscapes⁽¹⁾
- 🏛️ Historic places
- 🚢 Shipwreck coast
- 🌿 Significant landscape: State⁽²⁾
- 🌿 Significant landscape: Regional⁽²⁾
- 🌿 Areas containing high value terrestrial habitat⁽³⁾
- 🌳 Public land
- 🌊 Declared water supply catchment
- 🌊 Regionally significant wetlands⁽⁴⁾
- 🌊 Rivers
- 🌊 Estuaries
- 🦩 Shorebird sites
- 🌊 Marine parks and reserves
- ⬆️ Urban flood considerations⁽⁵⁾
- ⬆️ Urban bushfire considerations⁽⁶⁾

Note: Other areas contain significant environmental assets that should be considered in detail through any finer scale planning.

(1) Many other Aboriginal heritage sites, places and objects occur across the region
 (2) Coastal Spaces and South West Landscape Assessment Study (draft areas subject to change)
 (3) Represents the three highest levels of NaturePrint strategic natural values
 (4) Legislatively protected wetlands
 (5) Urban flood considerations are based on existing overlays
 (6) Bushfire considerations may be based on one or more of the following: existing overlays, advice from CFA or Regional Bushfire Planning Assessments. Does not include Bushfire Prone Areas.
