Schedule of planned activities
Community and stakeholder engagement and consultation for the proposed Victoria Energy Terminal (VET) is guided by the project development phases and the EES Consultation Plan.

Consultation activities planned from 1 January 2026 to 31 March 2026 will focus on informing stakeholders and the community about the EES public exhibition. Timing is subject to the authorisation by the Minister for Planning for public exhibition of the EES but expected to begin in early to mid 2026. Engagement activities will aim to raise awareness of the availability of the EES documents, provide opportunities to discuss them with project representatives including technical specialists, and to build understanding of the public comment.. Feedback will also continue to be gathered to gain insights into project sentiment and key areas of concern for the local community.

This document provides a schedule of activity planned for Q1 2026. **Activities and timing are subject to change based on ongoing stakeholder feedback and project progress.**

January 2026
