

# Loddon Mallee South

# Map 8: Future environment and heritage directions

## Directions

Avoid or minimise the impact of development on high value environmental and cultural heritage assets.

Maintain the non-urban breaks between settlements.

Protect the waterways of the region.

Build the region's environmental credentials.

Manage growth to help maintain the health of water supply catchments.

Support the development of tourism opportunities in the region associated with cultural heritage values.

Manage risks to settlement growth from natural hazards.

 Aboriginal cultural heritage, places and landscapes<sup>(1)</sup>

 Areas containing high value terrestrial habitat<sup>(2)</sup>

 Public land

 Declared water supply catchment

 Regionally significant wetlands<sup>(3)</sup>

 Lakes

 Rivers

 Urban flood considerations<sup>(4)</sup>

 Urban bushfire considerations<sup>(5)</sup>

 Urban salinity considerations<sup>(4)</sup>

 Freeways and highways

 Settlement

(1) Many other Aboriginal heritage sites, places and landscapes occur across the region

(2) Represents the three highest levels of NaturePrint strategic natural values.

(3) Legislatively protected wetlands

(4) Urban flood and salinity considerations are based on existing overlays

(5) Bushfire considerations may be based on one or more of the following: existing overlays, advice from CFA or Regional Bushfire Planning Assessments. Does not include Bushfire Prone Areas.
