

## DELWP and Government Agency Consultation

GBE continues to have regular contact with the various fishing bodies whose members may fish the GB area.

This includes the South East Trawl Fisheries Australia (SETFIA) and Seafood Industry Victoria

This includes Project information mail-outs to members and face-to-face meeting with industry representatives.

This included a recent meeting with SETFIA and fishermen with GBE's sub-sea design engineer to reduce project impact on fishing operations in the area.

SETFIA will also be engaged to provide information of fishing activities over the past few years, catch rates, fishing methods employed and other information which will be built into the sub-sea design criteria for the well heads and the sub-sea trunkline to shore.

ID	Event Type	Event Date	Stakeholders	Issues
1125814	Face to Face	11/04/2019 10:45	SETFIA	General: The project, Construction: Offshore, Regulatory: Pipeline approvals, Regulatory: Offshore approvals
