

DECISION ON PROJECT

Decision under section 8B(3)(a) of the *Environment Effects Act 1978*

Blue Hills Quarry (Referral Number 2025-R03)

Assessment though an environment effects statement (EES) under the *Environment Effects Act 1978* **is required** for the reasons set out in the attached Notice of Reasons for Decision.

Procedures and requirements under section 8B(5) of the *Environment Effects Act 1978*

The procedures and requirements applying to the EES, in accordance with both section 8B(5) of the Act and the *Ministerial guidelines for assessment of environmental effects under the Environment Effects Act 1978* (Ministerial Guidelines), are as follows:

- (i) The EES is to document investigations of potential environmental effects of the proposed project, including feasible alternatives and associated avoidance and environmental mitigation and management measures, in particular for:
 - a. native vegetation and associated biodiversity values, including listed threatened species and communities, such as through the loss, degradation or fragmentation of habitat or through other indirect causes, as well as related ecological effects;
 - b. surface water and groundwater and associated environmental values (e.g. groundwater dependent ecosystems) from the project, such as excavation, dewatering and offsite discharges;
 - c. Aboriginal cultural heritage and historic heritage values;
 - d. traffic and safety, from heavy vehicles movements to and from the site on the public road system, and any associated road safety implications; and
 - e. amenity (air, noise and vibration), landscape and community values.
- (ii) The matters to be investigated and documented in the EES will be set out more fully in scoping requirements. Draft scoping requirements will be exhibited for 15 business days, before final scoping requirements are issued by the Minister for Planning.
- (iii) The proponent is to prepare and submit to the Department of Transport and Planning (DTP) an adequate draft EES study program to inform the preparation of scoping requirements.
- (iv) The level of detail of investigation for the EES studies should be consistent with the approach set out in the scoping requirements and be adequate to inform an assessment of the significance and acceptability of its potential environmental effects, in the context of the Ministerial Guidelines.
- (v) DTP will convene an inter-agency technical reference group (TRG) to advise DTP and the proponent on the scoping requirements, the design and adequacy of the EES studies, and coordination with statutory approval processes.
- (vi) The proponent is to prepare and submit to DTP its proposed EES Consultation Plan for engaging with the public and stakeholders during the preparation of the EES. Once completed to the satisfaction of DTP, the EES consultation plan is to be implemented by the proponent, having regard to advice from DTP and the TRG.
- (vii) The proponent is also to prepare and submit to DTP its proposed schedule for the completion of studies, preparation and exhibition of the EES, following confirmation of

the scoping requirements. This schedule will be finalised in consultation with DTP and is intended to facilitate the alignment of the proponent's and DTP's timeframes, including for TRG review of technical studies and main report.

- (viii) The proponent is to apply appropriate peer review and quality management procedures to enable the completion of EES studies and documentation to a satisfactory standard.
- (ix) The EES is to be exhibited for a period of 30 business days for public comment, unless the exhibition period spans the Christmas–New Year period, in which case 40 business days will apply.
- (x) An inquiry will be appointed under the *Environment Effects Act 1978* to consider environmental effects of the proposal.

Notification

The following parties (proponent and relevant decision-makers) are to be notified of this decision in accordance with sections 8A and 8B(4)(a)(i) of the *Environment Effects Act 1978*, as appropriate:

- E B Mawson and Sons Pty Ltd (proponent)
- Minister for Environment
- Minister for the Environment and Water
- Member for Bendigo West
- Secretary of the Department of Energy, Environment and Climate Action (DEECA)
- DEECA Resources Victoria
- Mount Alexander Shire Council
- Dja Dja Wurrung Clans Aboriginal Corporation
- North Central Catchment Management Authority
- Goulburn Murray Water
- Environment Protection Authority
- Heritage Victoria
- First Peoples – State Relations
- Country Fire Authority

HON SONYA KILKENNY MP
Minister for Planning
