

Pick My Park has announced funding of over \$9.5 million for park projects across Melbourne and regional cities. The list of funded projects in Melbourne is provided below.

Pick My Park

The community has voted and now 48 projects have been awarded grants in Melbourne through the \$30 million Pick My Park program.

Round 1 of the Pick My Park program focused on key areas identified in Plan for Victoria to accommodate additional housing. It included the suburbs surrounding the 60 centres of the Train and Tram Zone Activity Centre Program and 15 Priority Precincts (including the Suburban Rail Loop precincts) across Melbourne as well as Ballarat, Bendigo and Geelong. \$17.8 million in funding was awarded to 97 projects including 14 new parks and 83 park upgrades.

Between 20 June and 3 August 2026, over 22,000 Victorians had their say by voting for their favourite park projects in metropolitan Melbourne via Engage Victoria. The most popular project in each eligible Local Government Area (LGA), where the LGA had a project, was selected to receive a grant. From there, the remaining funds went to the most popular projects in the region voting group, according to voting rank, until the region's funding allocation was exhausted.

To ensure funding is shared across Melbourne, voting was conducted by region: Western Melbourne, Northern Melbourne, Inner Melbourne, Eastern Melbourne and Southern Melbourne. Each region voting group had an equal share of the funding assigned to it.
